Dear Ms.?

Who has a signature almost as illegible as mine but I always provide my name <sup>clearly</sup> ~~reliably~~ but who, unlike me, does not read.

And thus waste time for a man who is 88, unwell, feeble and still trying to continue his work.

My letter to Steve Filley begins by telling you that I have the right, as granted in the settlement of a law suit I filed jointly with Gerard Selby, to have individual pictures of all the frames of the Zapruder film.

And now, if you are not aware of it or have no record of it, instead of checking with Mr. Silverberg yourself, you tell me to do. I believe that is and was your responsibility and I ask you to do that now.

If he is not in, my lawyer in that matter was Jim Lesar, who is well known to you people.

The only restriction on me, as I remember it, was against unauthorized public use.

I have and for years have had the permission you refer to in your last paragraph. I was not able to exercise it earlier and now all I am asking is for two frames.

I will appreciate no more stalling. I am 88 and there is no justification for this delay.

Sincerely,

A handwritten signature in cursive ink that appears to read "Harold Weisberg".
